

Aluminum Metal Roofing & Siding

IDEAL FOR COASTAL & CORROSIVE ENVIRONMENTS

Aluminum delivers exceptional corrosion resistance for projects in coastal or other corrosive environments. AEP Span offers aluminum in select roofing and siding profiles that combine long-term durability with refined architectural performance for demanding environments.

Features and Benefits:

- Third-party tested to meet and exceed industry testing standards.
- Pre-painted aluminum in .032" and .040" thicknesses.
- 40-year Finish Warranty offered in a wide range of PVDF colors. (Excludes Vintage® and ZINCALUME® Plus)
- Custom colors available by special order. Consult an AEP Span Sales Representative for lead times and minimum order requirements.
- 20 and 15-year Marine Environment Warranties available.
- Weathertight Warranty available for roof applications only.
- Minimum order requirements and extended lead times apply.

NOTE: ASC Profiles disclaims any and all representations and warranties when aluminum flat sheet is used in automated manufacturing processes and further disclaims any and all liability for such use.

OIL CANNING: All flat metal surfaces can display waviness commonly referred to as "oil canning". Oil canning is an inherent characteristic of metal products, not a defect, and therefore is not a cause for panel rejection.

Available in Dura Tech® 5000/mx (PVDF) Colors in the Following Profiles:

16" Span-Lok™ hp
.040"

Prestige Series® - No Reveal
.040"
